SUBJECT INDEX

- abdominal muscle; vestibular regulation of respiration 112
- absorption; absorption of dipeptide 204
- Abstracts
 - 23rd Annual Scientific Meeting of the High Blood Pressure Research Council of Australia Inc. A1
 - 3rd International Amsterdam Mouse Symposium A69
 - Annual Scientific Meeting of the Australian Atherosclerosis Society A41
- acetylcholine
 - COX and regional kidney perfusion 873
 - endothelial function in GH rats 405
 - endothelium-derived factors in SHRSP artery 1066
 - scorpion venom and toxins (Invited Review) 795
- acidified ethanol; antiseptics drugs and ulcers 173
- action potentials; myoendothelial electrical coupling in arteries 630
- acute renal failure; α -lipoic acid and ischaemic ARF 189
- adenine nucleotide translocator; the adenine nucleotide translocator 334
- adenosine; adenosine and hypoxia 843
- adenosine A₁ receptors; adenosine receptors after spinal cord injury 915
- adenosine A₂ receptors; adenosine receptors after spinal cord injury 915
- adenylyl cyclase
 - β_2 -adrenoceptor signalling in volume overload 181
 - desensitization of β -adrenoceptor agonists 646
- adherent mucus; L-arginine and gastric mucosal lesions 32
- adipose tissue; combined pioglitazone and meformin 269
- adrenaline
 - NO regulates catecholamine release 589
 - spleen and systemic blood cell count 53
- adrenergic; scorpion venom and toxins (Invited Review) 795
- α -adrenoceptor blockade; endothelium and adrenoceptors 603
- α_1 -adrenoceptors
 - NA regulation of mRNA expression 1084
 - α_1 -adrenoceptors and preconditioning 11
- α_2 -adrenoceptors; central N/OFQ and stress in SHR 254
- β -adrenoceptors
 - desensitization of β -adrenoceptor agonists 646
 - heterogeneity of atrial autonomic receptors 666
 - transdermal delivery system of a β -AR agonist 1076
- β -adrenoceptor blockade; endothelium and adrenoceptors 603
- β_2 -adrenoceptor; β_2 -adrenoceptor signalling in volume overload 181
- β_2 -adrenoceptor; risperidone alters bodyweight gain of rats 980
- afferent arteriole; renal arteriolar signalling events in diabetes 143
- afterhyperpolarization; slow AHP K⁺ channels in enteric neurons 935
- ageing
 - age, androgens and muscular strength 39
 - ageing blunts effects of NO on O₂ consumption 924
 - aortic wall stiffness in old SHR 898
 - NK₁ receptors in aged brain 1112
 - protection of ageing heart by nicorandil 441
 - thiolic anti-oxidant supplementation 1009
- age-related changes; D2 receptors in coronary vessels 412
- agonists and antagonists; pharmacology of nociceptin receptors 223
- AHP *see* afterhyperpolarization
- airway resistance; vestibular regulation of respiration 112
- airway smooth muscle
 - desensitization of β -adrenoceptor agonists 646
 - transdermal delivery system of a β -AR agonist 1076
- alacepril; effect of alacepril on exercise capacity 1060
- aldosterone
 - NO regulates catecholamine release 589
 - short fasting and biological rhythm 582
- alerting response; short- and long-term cardiovascular regulation (Brief Review) 261
- allicin; garlic induces pulmonary vasorelaxation 84
- alliinase; garlic induces pulmonary vasorelaxation 84
- amino acid transport system X-AG; glutamate transporters in the CNS 1018
- amino acids; GABA in the control of SPN 507
- AMP-activated protein kinase; adaptations to endurance training 218
- amyloid-forming proteins; hypothesis of dangerous unchaperoned molecules (Brief Review) 741
- anaesthesia; exercise pressor reflex in rats 689
- anaesthetic; effects of propofol in hypertension (Short Communication) 1015
- anandamide; update on EDHF (Brief Review) 153
- androgen; age, androgens and muscular strength 39
- angina; omapatrilat in reversible, low-flow ischaemia 696
- angiogenesis
 - therapeutic angiogenesis in rabbit hindlimb 1035
 - VEGF-B protein 1024
- angiotensin
 - endothelial dysfunction in renal hypertension 26
 - vascular MAPK activity and hypertension 537
- angiotensin II
 - angiotensin peptides and the baroreflex 473
 - COX and regional kidney perfusion 873
 - endothelium-dependent effect of ANP 92
 - neuronal AT₁ receptor signalling 483
 - vasculature response in AngII hypertension 867
- angiotensin-converting enzyme inhibitor
 - quinapril restores insulin vasodilation 381
 - omapatrilat in reversible, low-flow ischaemia 696
 - clinical trials and tribulations (Brief Review) 951
- angiotensin receptor antagonists; AngII receptor in the VLM 467
- animal models; neuroprotective drugs 1030
- Anoectochilus formosanus*; *Anoectochilus formosanus* in diabetic rats 684
- ANP *see* atrial natriuretic peptide
- anti-arrhythmic; quinidine and cardiac I_{NaCa} (Short Communication) 777
- anticancer drug-resistant cells; P-glycoprotein-mediated transport of quinolones 167
- antihyperglycaemic; *Anoectochilus formosanus* in diabetic rats 684

- antimicrobial proteins; hypothesis of dangerous unchaperoned molecules (Brief Review) 741
- antinociceptive; captopril and TENS antinociceptive action (Short Communication) 464
- anti-oxidant
Anoectochilus formosanus in diabetic rats 684
 thiolic anti-oxidant supplementation 1009
- antiplatelet drugs; effects of policosanol on platelet aggregation 891
- antispastic management; arterial grafts in CABG 717
- antivenom
 snake venoms and the neuromuscular junction (Invited Review) 807
 spider neurotoxins in the Asia-Pacific (Invited Review) 785
- aorta
 effects of propofol in hypertension (Short Communication) 1015
 NOS in vascular smooth muscle 725
- aortic rings; quinapril restores insulin vasodilation 381
- apoptosis
 cyclosporine A inhibits apoptosis 852
 salvaging the ischaemic penumbra (Brief Review) 1
- arachidonic acid
 NO inhibition of renal epoxygenase 990
 update on EDHF (Brief Review) 153
- β -AR *see* β -adrenoceptor
- ARF *see* acute renal failure
- L-arginine
 effect of glycerol on renal endothelial factors 679
 L-arginine and gastric mucosal lesions 32
 NO and dopamine in expanded rats 772
- [Arg¹⁴,Lys¹⁵]NC; pharmacology of nociceptin receptors 223
- arterial blood pressure
 exercise pressor reflex in rats 689
 NO and dopamine in expanded rats 772
- arterial calcinosis; elimination of anions in arterial calcinosis 48
- arterial compliance; large artery stiffness and exercise 214
- arterial grafts; arterial grafts in CABG 717
- arterial stiffness; large artery stiffness and exercise 214
- arteries; gap junctions and EDHF 595
- arteriogenesis; therapeutic angiogenesis in rabbit hindlimb 1035
- arterioles
 conducted vascular responses 626
 tyrosine phosphorylation and myogenic reactivity 612
- asymmetric dimethyl-L-arginine; oestrone and membrane fluidity 972
- AT₁ receptor
 AngII receptor in the VLM 467
 neuronal AT₁ receptor signalling 483
 role of K_{Ca} in vascular remodelling 324
- atherosclerosis
 adhesion molecules and weight reduction 399
 old and new risk factors for atherosclerosis 838
- ATP-sensitive K⁺ channels
 oxidative stress and K⁺ channels 305
 K_{ATP} channels in vascular smooth muscle 312
 renal arteriolar signalling events in diabetes 143
- atractoxin; spider neurotoxins in the Asia-Pacific (Invited Review) 785
- atrial natriuretic peptide
 endothelium-dependent effect of ANP 92
 effect of caffeine on Na⁺/K⁺-ATPase and NHE3 559
- auditory neurons; trophic factors in the inner ear (Brief Review) 363
- autonomic nervous system
 vestibular regulation of sympathetic activity 99
 melanocortins and cardiovascular function 549
- autoradiography
 D2 receptors in coronary vessels 412
 NK₁ receptors in aged brain 1112
- baicalin; baicalin and endothelium 721
- baroreceptor afferents; NTS and sensory integration during locomotion 103
- baroreceptor reflex
 AngII receptor in the VLM 467
 angiotensin peptides and the baroreflex 473
 GABAergic control of presympathetic neurons 514
 short- and long-term cardiovascular regulation (Brief Review) 261
- baroreflex
 autonomic reflexes and calcium antagonists 372
 HRV and baroreflex in fetal and neonatal sheep 455
- baroreflex sensitivity; melanocortins and cardiovascular function 549
- basal forebrain; NK₁ receptors in aged brain 1112
- bee venom; oxidative stress involved in been venom action 564
- beta-blocker; haemodynamic effects of vasodilatory beta-blockers 198
- Bezold-Jarisch-like reflex; autonomic reflexes and calcium antagonists 372
- bile acid; piperacillin and bile flow 880
- biliary excretion; P-glycoprotein-mediated transport of quinolones 167
- bioactive peptide; absorption of dipeptide 204
- bioinsecticide; spider neurotoxins in the Asia-Pacific (Invited Review) 785
- biological assay; VEGF-B protein 1024
- biomechanics; glucose and glomerular stretch 149
- BK; role of K_{Ca} in vascular remodelling 324
- blood flow
 endothelium and adrenoceptors 603
 K_{ATP} channels in vascular smooth muscle 312
- blood pressure
 amino acids in CAN cardiovascular regulation 522
 cardiovascular effects 243
 degranulation of RMIC 1055
 EGb on cerebral thrombosis in SHRSP 963
 glutamate circuits 491
 NTS and sensory integration during locomotion 103
 protection of ageing heart by nicorandil 441
- blood pressure regulation
 short- and long-term cardiovascular regulation (Brief Review) 261
 GABAergic control of presympathetic neurons 514
- blood pressure variability; melanocortins and cardiovascular function 549
- blood vessels; myoendothelial electrical coupling in arteries 630
- Book Reviews 260, 525, 1045
- bradycardia
 cardiovascular effects 243
 glutamate circuits 491
 NO and cholestasis-induced bradycardia 905
- bradykinin; COX and regional kidney perfusion 873

- brain; neuronal AT₁ receptor signalling 483
 brain ischaemia; glutamate transporters in the CNS 1018
 brain stem; GABAergic control of presympathetic neurons 514
 breathlessness; human respiratory control: A balancing act 118
 8-bromo guanosine cGMP; GST inhibitor on GTN action 1091
 bromosulphophthalein; GST inhibitor on GTN action 1091
 brown adipose tissue; effects of caffeine on UCP 391
 brown fat; haemodynamic effects of vasodilatory beta-blockers 198
 bulbospinal neurons; RVLM opioids 238
- C1 cell group; GABAergic control of presympathetic neurons 514
 Ca²⁺; histamine receptors in human uterine artery 711
 Ca²⁺-activated K⁺ channels
 oxidative stress and K⁺ channels 305
 role of K_{Ca} in vascular remodelling 324
 SK channels in the guinea-pig GI tract 18
 slow AHP K⁺ channels in enteric neurons 935
 Ca²⁺ signalling; tyrosine phosphorylation and myogenic reactivity 612
 CABG *see* coronary artery bypass grafting
 cable properties; conducted vascular responses 626
 caffeine
 effect of caffeine on Na⁺/K⁺-ATPase and NHE3 559
 effects of caffeine on UCP 391
 calciseptine; three-finger toxins from snake venoms (Invited Review) 815
 calcitonin gene-related peptide; α -CGRP and delayed preconditioning 569
 calcium; oxidative stress involved in been venom action 564
 calcium channel blocker
 cardiotoxin and vascular contraction (Invited Review) 823
 clinical trials and tribulations (Brief Review) 951
 calf blood pressure ratio; therapeutic angiogenesis in rabbit hindlimb 1035
 candesartan; role of K_{Ca} in vascular remodelling 324
 capsaicin
 α -CGRP and delayed preconditioning 569
 enterogastric brake in intestinal resection 68
 captopril; captopril and TENS antinociceptive action (Short Communication) 464
 captopril hydrochlorothiazide; aortic wall stiffness in old SHR 898
 carbohydrate; adaptations to endurance training 218
 cardiac failure; rat model of ischaemic or dilated cardiomyopathy 728
 cardiac hypertrophy; metabolic switches in cardiac hypertrophy 339
 cardiac myocyte; quinidine and cardiac I_{NaCa} (Short Communication) 777
 cardiopulmonary exercise test; effect of alacepril on exercise capacity 1060
 cardiopulmonary vagal afferents; angiotensin peptides and the baroreflex 473
 cardiotoxin
 cardiotoxin and vascular contraction (Invited Review) 823
 three-finger toxins from snake venoms (Invited Review) 815
 cardiovascular; amino acids in CAN cardiovascular regulation 522
 cardiovascular and renal function; central N/OFQ and stress in SHR 254
 cardiovascular control; vestibular regulation of sympathetic activity 99
 cardiovascular regulation; NTS and sensory integration during locomotion 103
 cardiovascular responses; NMDA-induced defence reactions in PAG 759
 catecholamine
 NO regulates catecholamine release 589
 opiates affect haemodynamic stress responses 248
 short fasting and biological rhythm 582
 catechol-O-methyltransferase; decrease of liver COMT in STZ-diabetic rats 419
 categorical variables; review of statistical methods (Special Article) 527
 cats; exercise pressor reflex in rats 689
 caudal ventrolateral medulla
 cardiovascular effects 243
 glutamate circuits 491
 caveolae; NOS in vascular smooth muscle 725
 cell cycle; insulin-enhanced lipofection 544
 cell membrane; NOS in vascular smooth muscle 725
 central cardiovascular pathways; short- and long-term cardiovascular regulation (Brief Review) 261
 central command; short- and long-term cardiovascular regulation (Brief Review) 261
 central nervous system; glutamate transporters in the CNS 1018
 central obesity; adhesion molecules and weight reduction 399
 cerebellum; vestibular regulation of respiration 112
 cerebral; neuroprotective drugs 1030
 cerebral arteries; K⁺ channels in cerebral artery 575
 cerebral microcirculation
 EGb on cerebral thrombosis in SHRSP 963
 oestrogen inhibits cerebral thrombosis 73
 cerebral thrombosis
 EGb on cerebral thrombosis in SHRSP 963
 oestrogen inhibits cerebral thrombosis 73
 cervical spinal cord injury; adenosine receptors after spinal cord injury 915
 cGMP
 ageing blunts effects of NO on O₂ consumption 924
 endothelial function in GH rats 405
 GST inhibitor on GTN action 1091
 chemoreceptor projection site
 cardiovascular effects 243
 glutamate circuits 491
 chloroquine; grapefruit juice and chloroquine interaction 704
 choleresis; piperacillin and bile flow 880
 cholestasis; NO and cholestasis-induced bradycardia 905
 cholesterol; piperacillin and bile flow 880
 cholinergic; scorpion venom and toxins (Invited Review) 795
 chronic ethanol consumption; chronic ethanol vascular reactivity (Short Communication) 707
 chronic hypoxia; chronic hypoxia preconditioning 435
 chronic lung disease; intratracheal glucocorticoid delivery 661
 chronobiology; short fasting and biological rhythm 582
 ciguatera; dinoflagellates and seafood poisonings (Invited Review) 829
 ciguatoxin; dinoflagellates and seafood poisonings (Invited Review) 829

- circadian rhythms; short fasting and biological rhythm 582
 class Ia; quinidine and cardiac I_{NaCa} (Short Communication) 777
 clinical pharmacology; clinical trials and tribulations (Brief Review) 951
 clinical trials; clinical trials and tribulations (Brief Review) 951
 clonidine; central N/O/FQ and stress in SHR 254
 CNS *see* central nervous system
 cobra venom; cardiotoxin and vascular contraction (Invited Review) 823
 codyceps; problems using herbal and natural substances 731
 collagen; aortic wall stiffness in old SHR 898
 collateral circulation; omapatrilat in reversible, low-flow ischaemia 696
 colorectal cancer; SULT1A1 R213H polymorphism and cancer 754
 column switching; absorption of dipeptide 204
 COMT *see* catechol-O-methyltransferase
 congestive heart failure; nicorandil and myocardial energy metabolism 639
 connexins
 conducted vascular responses 626
 vascular connexins and gap junctions 620
 continuous variables; review of statistical methods (Special Article) 527
 contractile function
 omapatrilat in reversible, low-flow ischaemia 696
 protection of ageing heart by nicorandil 441
 contractile properties; creatine and muscle contraction 885
 contractile response; chronic ethanol vascular reactivity (Short Communication) 707
 contraction
 baicalin and endothelium 721
 creatine and diaphragm function (Short Communication) 782
 coronary artery
 GST inhibitor on GTN action 1091
 haemodynamic effects of vasodilatory beta-blockers 198
 coronary artery bypass grafting; arterial grafts in CABG 717
 coronary artery disease; arterial grafts in CABG 717
 coronary artery surgery; arterial grafts in CABG 717
 coronary blood flow; ageing blunts effects of NO on O_2 consumption 924
 coronary circulation; endothelial effects of heat stress 956
 coronary disease; large artery stiffness and exercise 214
 coronary heart disease
 hypertension and heart failure 850
 clinical trials and tribulations (Brief Review) 951
 coronary vessels; D2 receptors in coronary vessels 412
 correlation; review of statistical methods (Special Article) 527
 COX *see* cyclo-oxygenase
 creatine
 creatine and diaphragm function (Short Communication) 782
 creatine and muscle contraction 885
 creatine kinase; myocardial energetics in cardiac hypertrophy 351
 Cu/Zn superoxide dismutase; renal vascular resistance in Zn deficiency 1096
 cyclo-oxygenase
 COX and regional kidney perfusion 873
 cytokines and airway smooth muscle (Brief Review) 859
 cyclosporine A
 P-glycoprotein-mediated transport of quinolones 167
 cyclosporine A inhibits apoptosis 852
 cytochrome P450
 evolution of drug metabolism 1040
 NO inhibition of renal epoxigenase 990
 cytotoxin; three-finger toxins from snake venoms (Invited Review) 815
 defence reactions; NMDA-induced defence reactions in PAG 759
 delayed neuronal injury; salvaging the ischaemic penumbra (Brief Review) 1
 delayed preconditioning; α -CGRP and delayed preconditioning 569
Dendroapsis natriuretic factor; DNP increases renal water excretion 195
 depressor responses
 cardiovascular effects 243
 glutamate circuits 491
 desensitization; transdermal delivery system of a β -AR agonist 1076
 dexamethasone; intratracheal glucocorticoid delivery 661
 diabetes
 glucose and glomerular stretch 149
 hyperglycaemia injures the microcirculation 138
 diabetes mellitus
 combined pioglitazone and meformin 269
 hypertension and heart failure 850
 renal arteriolar signalling events in diabetes 143
 diabetic rats; α -lipoic acid supplementation in diabetes 281
 diaphragm
 creatine and diaphragm function (Short Communication) 782
 human respiratory control: A balancing act 118
 vestibular regulation of respiration 112
 diarrhetic shellfish poisoning; dinoflagellates and seafood poisonings (Invited Review) 829
 diet; adhesion molecules and weight reduction 399
 diffusion-weighted imaging; salvaging the ischaemic penumbra (Brief Review) 1
 digital signalling processing; melanocortins and cardiovascular function 549
 dihydrotestosterone; age, androgens and muscular strength 39
 dilated cardiomyopathy; rat model of ischaemic or dilated cardiomyopathy 728
 dinoflagellate; dinoflagellates and seafood poisonings (Invited Review) 829
 dipeptide; absorption of dipeptide 204
 DNP *see* *Dendroapsis* natriuretic factor
 dog
 heterogeneity of atrial autonomic receptors 666
 omapatrilat in reversible, low-flow ischaemia 696
 dopamine
 NO and dopamine in expanded rats 772
 short fasting and biological rhythm 582
 dopaminergic receptors; D2 receptors in coronary vessels 412
 dorsal root ganglia; α -CGRP and delayed preconditioning 569
 doxorubicin; P-glycoprotein-mediated transport of quinolones 167
 drug metabolism; evolution of drug metabolism 1040
 EAA *see* excitatory amino acid
 EDHF *see* endothelium-dependent hyperpolarizing factor
 efferent arteriole; renal arteriolar signalling events in diabetes 143

- EGb 761; EGb on cerebral thrombosis in SHRSP 963
 elastin; aortic wall stiffness in old SHR 898
 electrical coupling
 conducted vascular responses 626
 myoendothelial electrical coupling in arteries 630
 electrical stimulation; trophic factors in the inner ear
 (Brief Review) 363
 electron and confocal microscopy; SK channels in the guinea-pig
 GI tract 18
 electron microscopy; vascular connexins and gap junctions 620
 electron paramagnetic resonance; oestrone and membrane
 fluidity 972
 endocardial; regional differences in ventricular I_{Na} 161
 endomorphin; vasodilator responses to opioid peptides 229
 endomorphin-1; endomorphin in rat small intestine 428
 endomorphin-2; endomorphin in rat small intestine 428
 β -endorphin; opiates affect haemodynamic stress responses 248
 endothelial function
 arterial grafts in CABG 717
 endothelial effects of heat stress 956
 endothelin; vascular MAPK activity and hypertension 537
 endothelin-1
 COX and regional kidney perfusion 873
 α -lipoic acid and ischaemic ARF 189
 endothelin-converting enzyme; effect of glycerol on renal
 endothelial factors 679
 endothelium-derived factors; endothelium-derived factors in
 SHRSP artery 1066
 endothelium-derived hyperpolarizing factor
 arterial grafts in CABG 717
 gap junctions and EDHF 595
 myoendothelial electrical coupling in arteries 630
 role of K_{Ca} in vascular remodelling 324
 update on EDHF (Brief Review) 153
 endothelium-derived relaxing factor
 effect of glycerol on renal endothelial factors 679
 histamine receptors in human uterine artery 711
 endothelium
 baicalin and endothelium 721
 endothelial dysfunction in renal hypertension 26
 endothelial function in GH rats 405
 endothelium and adrenoceptors 603
 endothelium-dependent effect of ANP 92
 garlic induces pulmonary vasorelaxation 84
 NOS in vascular smooth muscle 725
 endotoxin; septic shock an peripheral opioidergic system
 (Short Communication) 608
 energy metabolism
 metabolic switches in cardiac hypertrophy 339
 the adenine nucleotide translocator 334
 energy substrate metabolism; mitochondrial proteins in
 hypertrophy 346
 enkephalins; RVLM opioids 238
 enterogastric brake; enterogastric brake in intestinal
 resection 68
 environment; old and new risk factors for atherosclerosis 838
 enzyme histochemistry; muscle fibre type distribution in the
 GK rat 1001
 enzyme immunoassay; serum concentration of egg white
 lysozyme 79
 epicardial; regional differences in ventricular I_{Na} 161
 epoxyeicosatrienoic acid
 update on EDHF (Brief Review) 153
 NO inhibition of renal epoxygenase 990
 erythrocyte
 spleen and systemic blood cell count 53
 oestrone and membrane fluidity 972
 E-selectin; adhesion molecules and weight reduction 399
 ethacrynic acid; GST inhibitor on GTN action 1091
 ethnicity; old and new risk factors for atherosclerosis 838
 excitatory amino acid; EAA inputs to the RVLM 503
 excitatory amino acid transporter; glutamate transporters in the
 CNS 1018
 excitatory neurotoxins; glutamate transporters in the CNS 1018
 exercise
 adhesion molecules and weight reduction 399
 exercise and plasticity 123
 exercise capacity; large artery stiffness and exercise 214
 exercise training
 exercise activation of MAPK 655
 large artery stiffness and exercise 214
 experimental pharmacology; clinical trials and tribulations
 (Brief Review) 951
 extensor digitorum longus; creatine and muscle contraction 885
 extracellular volume expansion; NO and dopamine in expanded
 rats 772
 F1-F0-ATPase; the adenine nucleotide translocator 334
 Fab'; serum concentration of egg white lysozyme 79
 farnesyl; fluvastatin and lymphocyte signalling 673
 fasciculin; three-finger toxins from snake venoms (Invited
 Review) 815
 fast plantaris muscle; muscle fibre type distribution in the
 GK rat 1001
 fasting; short fasting and biological rhythm 582
 fat; adaptations to endurance training 218
 fatigue; creatine and muscle contraction 885
 fibre type; effect of creatine on fast-twitch muscle 1105
 fibre type distribution; muscle fibre type distribution in the
 GK rat 1001
 field stimulation; NOS in vascular smooth muscle 725
 fixed bias; review of statistical methods (Special Article) 527
 fluvastatin
 fluvastatin and lymphocyte signalling 673
 fluvastatin and vascular remodelling
 (Short Communication) 931
 food; short fasting and biological rhythm 582
 force; effect of creatine on fast-twitch muscle 1105
 fucoidin; fucoidin causes granulocyte aggregation 909
 functional recovery; adenosine receptors after spinal cord
 injury 915
 functional remodelling; role of K_{Ca} in vascular
 remodelling 324
 functional site; three-finger toxins from snake venoms
 (Invited Review) 815
 GABA
 amino acids in CAN cardiovascular regulation 522
 exercise and plasticity 123
 GABA in the control of SPN 507
 GABAergic control of presympathetic neurons 514
 NTS and sensory integration during locomotion 103

- GABA_A receptor complex; somatostatin-[³⁵S]-TBPS interactions 291
- ganglionic blockers; guinea-pig isolated oesophagus (Brief Review) 1047
- gap junction
 conducted vascular responses 626
 gap junctions and EDHF 595
 myoendothelial electrical coupling in arteries 630
 vascular connexins and gap junctions 620
- gap27; myoendothelial electrical coupling in arteries 630
- garlic; garlic induces pulmonary vasorelaxation 84
- gastric cancer cell line; insulin-enhanced lipofection 544
- gastric emptying; enterogastric brake in intestinal resection 68
- gastric haemorrhagic lesion; antisecretory drugs and ulcers 173
- gastric mucosal lesions (rat); L-arginine and gastric mucosal lesions 32
- gastric mucus; L-arginine and gastric mucosal lesions 32
- gastric ulcer; antisecretory drugs and ulcers 173
- gastrointestinal tract; SK channels in the guinea-pig GI tract 18
- gene expression; metabolic switches in cardiac hypertrophy 339
- gene transfer; therapeutic angiogenesis in rabbit hindlimb 1035
- genetic polymorphism; SULT1A1 R213H polymorphism and cancer 754
- genetically hypertensive rat
 endothelial function in GH rats 405
 fluvastatin and vascular remodelling (Short Communication) 931
- genetics; old and new risk factors for atherosclerosis 838
- geranylgeranyl; fluvastatin and lymphocyte signalling 673
- GH rats *see* genetically hypertensive rats
- GI tract *see* gastrointestinal tract

 K⁺ channels; update on EDHF (Brief Review) 153
 KAD-1229; effect of KAD-1229 after meal load 423
 kallikrein; short fasting and biological rhythm 582
 kappa statistic; review of statistical methods (Special Article) 527
 K_{ATP} channel; protection of ageing heart by nicorandil 441
 kidney
 cyclosporine A inhibits apoptosis 852
 oxidative stress involved in been venom action 564
 kidney function; effect of glycine on lithium clearance 449
 kinetics; grapefruit juice and chloroquine interaction 704
 Kv; K channels and resting potential 330
 kynurenic acid; EAA inputs to the RVLM 503
- labyrinthine; vestibular regulation of sympathetic activity 99
 lansoprazole; antisecretory drugs and ulcers 173
 large-conductance Ca²⁺-activated K⁺ channels; NO and MTS reagent modulation of BK_{Ca} channels 944
 latroinsectotoxin; spider neurotoxins in the Asia-Pacific (Invited Review) 785
 latrotoxin; spider neurotoxins in the Asia-Pacific (Invited Review) 785
 least products regression analysis; review of statistical methods (Special Article) 527
 left ventricular volume overload; β_2 -adrenoceptor signalling in volume overload 181
 leptin; risperidone alters bodyweight gain of rats 980
 leucocyte; spleen and systemic blood cell count 53
 limits of agreement; review of statistical methods (Special Article) 527
 lipid peroxides; protective effect of oestrogens against t-BHP 60
 lipofection; insulin-enhanced lipofection 544
 α -lipoic acid
 α -lipoic acid and ischaemic ARF 189
 α -lipoic acid supplementation in diabetes 281
 lipopolysaccharide; opiates affect haemodynamic stress responses 248
 lithium clearance; effect of glycine on lithium clearance 449
 locomotion; NTS and sensory integration during locomotion 103
 log-linear modelling; review of statistical methods (Special Article) 527
 L-type calcium channel; autonomic reflexes and calcium antagonists 372
 lymphocytes; thiolic anti-oxidant supplementation 1009
 lysozyme; serum concentration of egg white lysozyme 79
- McNemar test; review of statistical methods (Special Article) 527
 magnetic resonance; nicorandil and myocardial energy metabolism 639
 magnetic resonance spectroscopy; salvaging the ischaemic penumbra (Brief Review) 1
 malonyl-CoA decarboxylase; mitochondrial proteins in hypertrophy 346
 mammalian heart; mitochondrial proteins in hypertrophy 346
 MAPK *see* mitogen-activated protein kinase
 marker binding technique; D2 receptors in coronary vessels 412
 meal load; effect of KAD-1229 after meal load 423
 mean arterial blood pressure; central N/OFQ and stress in SHR 254
 mechanical strain; glucose and glomerular stretch 149
 medulla oblongata
 amino acids in CAN cardiovascular regulation 522
 short- and long-term cardiovascular regulation (Brief Review) 261
 medullary blood flow; COX and regional kidney perfusion 873
 γ -melanocyte-stimulating hormone; melanocortins and cardiovascular function 549
 melittin; oxidative stress involved in been venom action 564
 membrane destabilization; hypothesis of dangerous unchaperoned molecules (Brief Review) 741
 membrane fluidity; oestrone and membrane fluidity 972
 membrane potential
 K channels and resting potential 330
 K_{ATP} channels in vascular smooth muscle 312
 membrane-linked pathologies; hypothesis of dangerous unchaperoned molecules (Brief Review) 741
 mesangial; glucose and glomerular stretch 149
 mesenteric artery; endothelium-derived factors in SHRSP artery 1066
 mesenteric resistance artery; endothelial function in GH rats 405
 metanephrine; decrease of liver COMT in STZ-diabetic rats 419
 metformin; combined pioglitazone and meformin 269
 methanethiosulphonate reagents; NO and MTS reagent modulation of BK_{Ca} channels 944
 method of differences; review of statistical methods (Special Article) 527
 N-methyl-D-aspartate
 NMDA-induced defence reactions in PAG 759
 NMDA receptors on second-order NTS neurons 497
 N-methyl-D-aspartate antagonists; neuroprotective drugs 1030
 mibefradil; autonomic reflexes and calcium antagonists 372
 mice; grapefruit juice and chloroquine interaction 704
 microspheres; nicorandil and myocardial energy metabolism 639
 misfolded hydrophobic proteins; hypothesis of dangerous unchaperoned molecules (Brief Review) 741
 mitochondria
 metabolic switches in cardiac hypertrophy 339

 mitogen-activated protein kinase
 adaptations to endurance training 218
 vascular MAPK activity and hypertension 537
 exercise activation of MAPK 655
 molecular; molecular diversity of Kv channels 317
 monoclonal antibody; VEGF-B protein 1024
 N^G-monomethyl-L-arginine; endothelium-dependent effect of ANP 92
 morphine; opiates affect haemodynamic stress responses 248
 morphine withdrawal; septic shock an peripheral opioidergic system (Short Communication) 608

- motoneuron; human respiratory control: A balancing act 118
 motor control; human respiratory control: A balancing act 118
 mRNA
 exercise and gene expression 209
 NA regulation of mRNA expression 1084
 vascular connexins and gap junctions 620
 MTS reagents *see* methanethiosulphonate reagents
 muscarinic receptor; heterogeneity of atrial autonomic receptors 666
 muscarinic toxin; three-finger toxins from snake venoms (Invited Review) 815
 muscle afferents; exercise pressor reflex in rats 689
 muscle contraction; guinea-pig isolated oesophagus (Brief Review) 1047
 muscle strength; age, androgens and muscular strength 39
 myenteric plexus
 guinea-pig isolated oesophagus (Brief Review) 1047
 slow AHP K⁺ channels in enteric neurons 935
 myocardial infarction; nicorandil and myocardial energy metabolism 639
 myocardial O₂ consumption; ageing blunts effects of NO on O₂ consumption 924
 myoendothelial cell gap junctions; update on EDHF (Brief Review) 153
 myoendothelial junctions; myoendothelial electrical coupling in arteries 630
 myofibre; exercise and gene expression 209
 myogenic response; tyrosine phosphorylation and myogenic reactivity 612
 myosin light chain kinase; tyrosine phosphorylation and myogenic reactivity 612

 N/OFQ *see* nociceptin/orphanin FQ
 Na⁺/glucose cotransporter; oxidative stress involved in been venom action 564
 Na⁺/K⁺-ATPase; effect of caffeine on Na⁺/K⁺-ATPase and NHE3 559
 Na⁺-Ca²⁺ exchanger; quinidine and cardiac I_{NaCa} (Short Communication) 777
 N-acetylcysteine; thiolic anti-oxidant supplementation 1009
 naloxone; sympathoinhibitory action of nociceptin 233
 naltrexone; opiates affect haemodynamic stress responses 248
 nasopharyngeal reflex; autonomic reflexes and calcium antagonists 372
 nateglinide; effect of KAD-1229 after meal load 423
 natriuretic peptide receptors; altered expression of NPR in hypertension 299
 neonatal sheep; HRV and baroreflex in fetal and neonatal sheep 455
 nephropathy; glucose and glomerular stretch 149
 neural control of blood pressure; RVLM opioids 238
 neurite outgrowth; trophic factors in the inner ear (Brief Review) 363
 neurodegenerative diseases; glutamate transporters in the CNS 1018
 neurohormonal factors; effect of alacepril on exercise capacity 1060
 neuromodulators; AngII receptor in the VLM 467
 neuromuscular junction; snake venoms and the neuromuscular junction (Invited Review) 807
 neuromuscular non-depolarizing agents; guinea-pig isolated oesophagus (Brief Review) 1047

 neuron; neuronal AT₁ receptor signalling 483
 neuronal survival; trophic factors in the inner ear (Brief Review) 363
 neuropeptide Y; endothelium and adrenoceptors 603
 neuroprotection; neuroprotective drugs 1030
 neurosteroids; somatostatin-[³⁵S]-TBPS interactions 291
 neurotoxin; snake venoms and the neuromuscular junction (Invited Review) 807
 neurotransmission; scorpion venom and toxins (Invited Review) 795
 neurotransmitters; AngII receptor in the VLM 467
 neurotrophic factors; trophic factors in the inner ear (Brief Review) 363
 NHE3 *see* type 3 Na⁺/H⁺ exchanger
 N^G-nitro-L-arginine methyl ester
 antisecretory drugs and ulcers 173
 oestrone and membrane fluidity 972
 NO regulates catecholamine release 589
 nitrenergic; scorpion venom and toxins (Invited Review) 795
 nitric oxide
 adenosine and hypoxia 843
 L-arginine and gastric mucosal lesions 32
 arterial grafts in CABG 717
 effect of caffeine on Na⁺/K⁺-ATPase and NHE3 559
 effect of glycerol on renal endothelial factors 679
 effect of glycine on lithium clearance 449
 EGb on cerebral thrombosis in SHRSP 963
 endothelial dysfunction in renal hypertension 26
 endothelial effects of heat stress 956
 endothelial function in GH rats 405
 garlic induces pulmonary vasorelaxation 84
 hyperglycaemia injures the microcirculation 138
 NO and cholestasis-induced bradycardia 905
 NO and dopamine in expanded rats 772
 NO and MTS reagent modulation of BK_{Ca} channels 944
 NO inhibition of renal epoxigenase 990
 NO in hypertensive vascular reactivity 275
 NO regulates catecholamine release 589
 oestrogen inhibits cerebral thrombosis 73
 oestrone and membrane fluidity 972
 renal vascular resistance in Zn deficiency 1096
 septic shock an peripheral opioidergic system (Short Communication) 608
 vasodilator responses to opioid peptides 229
 nitric oxide synthase
 L-arginine and gastric mucosal lesions 32
 NO regulates catecholamine release 589
 NOS in vascular smooth muscle 725
 nitric oxide synthesis; endothelium-dependent effect of ANP 92
 nitroglycerin; GST inhibitor on GTN action 1091
 s-nitroso-N-acetylpenicillamine; oestrone and membrane fluidity 972
 NK₁ receptor; NK₁ receptors in aged brain 1112
 NMDA *see* N-methyl-D-aspartate
 NO *see* nitric oxide
 nociceptin/orphanin FQ
 central N/OFQ and stress in SHR 254
 pharmacology of nociceptin receptors 223
 nociceptin
 sympathoinhibitory action of nociceptin 233
 vasodilator responses to opioid peptides 229

- noradrenaline
 COX and regional kidney perfusion 873
 effects of propofol in hypertension
 (Short Communication) 1015
 NA regulation of mRNA expression 1084
 neuronal AT₁ receptor signalling 483
 NO regulates catecholamine release 589
 scorpion venom and toxins (Invited Review) 795
 spleen and systemic blood cell count 53
 [Nphe¹]NC(1-3)NH₂; pharmacology of nociceptin
 receptors 223
 NPR *see* natriuretic peptide receptors
 NTS *see* nucleus tractus solitarius
 nucleus tractus solitarius
 angiotensin peptides and the baroreflex 473
 cardiovascular effects 243
 glutamate circuits 491
 NMDA receptors on second-order NTS neurons 497
 NTS and sensory integration during locomotion 103
 nutrition; short fasting and biological rhythm 582
 NXY-059; neuroprotective drugs 1030
- obesity
 combined pioglitazone and metformin 269
 muscle fibre type distribution in the GK rat 1001
 risperidone alters bodyweight gain of rats 980
 Obituary; Michael John Rand 855
 observational studies; clinical trials and tribulations
 (Brief Review) 951
 oedema; pirfenidone in ischaemia-reperfusion injury 996
 oesophagus; guinea-pig isolated oesophagus
 (Brief Review) 1047
 oestrogen
 oestrogen inhibits cerebral thrombosis 73
 protective effect of oestrogens against t-BHP 60
 oestrone; oestrone and membrane fluidity 972
 okadaic acid; dinoflagellates and seafood poisonings
 (Invited Review) 829
 omeprazole; antisecretory drugs and ulcers 173
 OP₁ receptors; pharmacology of nociceptin receptors 223
 opioid peptides; RVLM opioids 238
 μ -opioid receptors; endomorphin in rat small intestine 428
 opioids; sympathoinhibitory action of nociceptin 233
 organic anions; elimination of anions in arterial calcinosis 48
 ORL₁ receptors; central N/OFQ and stress in SHR 254
 orphanin FQ; sympathoinhibitory action of nociceptin 233
 orthostasis; vestibular regulation of sympathetic activity 99
 orthostatic hypotension; autonomic reflexes and calcium
 antagonists 372
 otolith organs; vestibular regulation of sympathetic activity 99
 oxidative phosphorylation; the adenine nucleotide
 translocator 334
 oxidative stress
 EGb on cerebral thrombosis in SHRSP 963
 endothelial dysfunction in renal hypertension 26
 oxidative stress and K⁺ channels 305
 oxidative stress involved in been venom action 564
 oxygen consumption; adenosine and hypoxia 843
 oxygen delivery; adenosine and hypoxia 843
- pacemaker shift; heterogeneity of atrial autonomic
 receptors 666
- PAG *see* periaqueductal grey
 pain; captopril and TENS antinociceptive action
 (Short Communication) 464
 PAR-2 *see* protease-activated receptor 2
 paralytic shellfish poisoning; dinoflagellates and seafood
 poisonings (Invited Review) 829
 paraventricular nucleus; AngII receptor in the VLM 467
 partial left ventriculectomy; rat model of ischaemic or dilated
 cardiomyopathy 728
 particulate guanylyl cyclase activity; altered expression of NPR
 in hypertension 299
 patch clamping; NO and MTS reagent modulation of BK_{Ca}
 channels 944
 patch formulation; transdermal delivery system of a β -AR
 agonist 1076
 patch-clamp; slow AHP K⁺ channels in enteric neurons 935
 PD-136450; antisecretory drugs and ulcers 173
 perfused pancreas; effect of T-1095 on perfused pancreas 386
 perfusion-weighted imaging; salvaging the ischaemic penumbra
 (Brief Review) 1
 periaqueductal grey, midbrain; NMDA-induced defence reactions
 in PAG 759
 peripheral vascular disease; therapeutic angiogenesis in rabbit
 hindlimb 1035
 peristaltic reflex; endomorphin in rat small intestine 428
 peroneal nerve; exercise pressor reflex in rats 689
 peroxisome proliferator-activated receptor α ; mitochondrial
 proteins in hypertrophy 346
 peroxidase; serum concentration of egg white lysozyme 79
 peroxyntirite; oxidative stress and K⁺ channels 305
 P-glycoprotein; P-glycoprotein-mediated transport of quinolones
 167
 pharmacoepidemiology; clinical trials and tribulations
 (Brief Review) 951
 pharmacokinetics; elimination of anions in arterial
 calcinosis 48
 phenylbiguanide; angiotensin peptides and the baroreflex 473
 phenylephrine
 quinapril restores insulin vasodilation 381
 spleen and systemic blood cell count 53
 phlorizin
 decrease of liver COMT in STZ-diabetic rats 419
 effect of T-1095 on perfused pancreas 386
 phosphates; myocardial energetics in cardiac hypertrophy 351
 phosphocreatine; effect of creatine on fast-twitch
 muscle 1105
 phospholipase A₂; snake venoms and the neuromuscular junction
 (Invited Review) 807
 phospholipid; piperacillin and bile flow 880
 pial vessels; oestrogen inhibits cerebral thrombosis 73
 pig; GST inhibitor on GTN action 1091
 pioglitazone-HCl; combined pioglitazone and metformin 269
 piperacillin; piperacillin and bile flow 880
 pirfenidone; pirfenidone in ischaemia-reperfusion injury 996
 pithed rat; NO regulates catecholamine release 589
 plasticity; exercise and plasticity 123
 platelet; spleen and systemic blood cell count 53
 platelet aggregation; effects of policosanol on platelet
 aggregation 891
 policosanol; effects of policosanol on platelet aggregation 891
 post-synaptic; snake venoms and the neuromuscular junction
 (Invited Review) 807

- post-synaptic neurotoxin; three-finger toxins from snake venoms (Invited Review) 815
- posture; human respiratory control: A balancing act 118
- potassium channel
- cardiac K⁺ channel remodelling 132
 - K channels and resting potential 330
 - K⁺ channels in cerebral artery 575
 - molecular diversity of Kv channels 317
 - see also ATP-sensitive potassium channels, SK channels, K⁺ channels calcium-activated K⁺ channels
- preconditioning; α_1 -adrenoceptors and preconditioning 11
- pre-eclampsia; TGF- β 1 in pre-eclampsia 968
- pregnancy; TGF- β 1 in pre-eclampsia 968
- pressor responses
- cardiovascular effects 243
 - glutamate circuits 491
- presympathetic neurons; RVLM opioids 238
- presynaptic; snake venoms and the neuromuscular junction (Invited Review) 807
- procaterol; desensitization of β -adrenoceptor agonists 646
- prolactin; risperidone alters bodyweight gain of rats 980
- pro-opiomelanocortin; melanocortins and cardiovascular function 549
- propofol; effects of propofol in hypertension (Short Communication) 1015
- proportional bias; review of statistical methods (Special Article) 527
- protease-activated receptor 2; PAR-2 and VR1 (Short Communication) 360
- protein kinases
- β_2 -adrenoceptor signalling in volume overload 181
 - glutamate transporters in the CNS 1018
- protein; vascular connexins and gap junctions 620
- protein-protein interaction; three-finger toxins from snake venoms (Invited Review) 815
- proximal tubule cells; protective effect of oestrogens against t-BHP 60
- pseudorabies virus; vestibular regulation of respiration 112
- pulmonary; garlic induces pulmonary vasorelaxation 84
- pulmonary artery; K channels and resting potential 330
- pulmonary hypertension; K channels and resting potential 330
- pulse wave velocity; large artery stiffness and exercise 214
- pyruvate dehydrogenase; cardiac K⁺ channel remodelling 132
- pyruvate dehydrogenase kinase 4; mitochondrial proteins in hypertrophy 346
- quantitative analysis of images; D2 receptors in coronary vessels 412
- quinapril; quinapril restores insulin vasodilation 381
- quinidine; quinidine and cardiac I_{NaCa} (Short Communication) 777
- quinolones; P-glycoprotein-mediated transport of quinolones 167
- rabbit; ageing blunts effects of NO on O₂ consumption 924
- rabbit kidney; effect of glycerol on renal endothelial factors radioligand-binding assay; heterogeneity of atrial autonomic receptors 666
- Ras; fluvastatin and lymphocyte signalling 673
- rat
- antiseptory drugs and ulcers 173
 - conscious; effect of glycine on lithium clearance 449
 - effect of KAD-1229 after meal load 423
 - exercise pressor reflex in rats 689
 - gap junctions and EDHF 595
 - haemodynamic effects of vasodilatory β -blockers 198
